

## **Jyoti**

Email: jyoti@gmail.com Phone: +91 98765-43210

LinkedIn: linkedin.com/in/jyoti-629ab8315 Location: Pune, Maharashtra

### **Career Objective**

Motivated and detail-oriented Diploma student in Information Technology with strong foundation in programming and software development. Seeking an entry-level Software Developer position to apply my technical skills in Python and Java while contributing to innovative projects. Eager to learn and grow in a dynamic development environment with emphasis on algorithms, data structures, and API development.

### **Education**

#### **Diploma in Information Technology**

JSPM's Bhivrabai Sawant Polytechnic, Pune

Year of Graduation: 2026

**Relevant Coursework:** Programming in C++, Java Programming, Python, Data Structures, Database Management, Web Development, Software Engineering

### **Technical Skills**

Python, Java, C++, JavaScript, Data Structures, Algorithms, REST API, Debugging, MySQL, React, Node.js

**Soft Skills:** Communication, Teamwork, Problem-solving, Time Management, Quick Learner

### **Projects**

#### **Student Management System**

Academic Project | Python, MySQL

- Developed a comprehensive student management system using Python programming language
- Implemented data structures for efficient student record management and retrieval
- Created REST APIs for CRUD operations on student data
- Designed and integrated MySQL database for persistent data storage
- Applied debugging techniques to ensure error-free functionality
- Used Git version control for project management and collaboration
- Implemented algorithms for student attendance tracking and grade calculation

## Personal Portfolio Website

Web Development | JavaScript, React

- Created a responsive portfolio website using React and JavaScript
- Implemented interactive UI components and smooth navigation
- Deployed project using Git version control and GitHub Pages
- Showcased academic projects and technical skills

## Technical Training

- **Python Programming** - 40 hours course covering fundamentals, data structures, and algorithms
- **Java Development** - Object-oriented programming and application development
- **Web Development** - HTML, CSS, JavaScript, and React framework
- **Database Management** - SQL, MySQL database design and querying
- **Git & Version Control** - Collaborative development using Git and GitHub

## Internship Experience

**Software Development Intern** Jan 2024 - Mar 2024

*Tech Solutions Pvt. Ltd., Pune*

- Assisted in developing web applications using Python and JavaScript
- Worked on debugging and testing software components
- Learned API development and integration techniques
- Collaborated with team members using Git for version control
- Gained hands-on experience with data structures and algorithms implementation

## Achievements & Activities

- Participated in college-level coding competition - Secured 2nd position
- Active member of Computer Science Club at JSPM Polytechnic
- Completed 30+ programming challenges on HackerRank and LeetCode
- Volunteer for technical events and workshops at college

## Personal Interests

Open-source contribution, Learning new programming languages, Algorithm problem-solving, Web development trends, Technology blogs and podcasts
